Global Restructuring Review Names Davies a Top 100 Firm

For the fifth consecutive year, *Global Restructuring Review* has recognized Davies among the top 100 law firms in the world for cross-border restructuring and insolvency work.

Our team is consistently called upon by organizations in Canada and around the globe to solve their most challenging restructuring and insolvency matters.

Among our notable work over the past year, we advised the following organizations:

- The lender and agent in connection with the recapitalization of ASX-listed mining company Boart Longyear Limited under the creditors' scheme approved by the Supreme Court of New South Wales in Australia;
- 9354-9186 Québec Inc. and 9354-9178 Québec Inc. (formerly Bluberi Gaming Technologies Inc. and Bluberi Group Inc., collectively "Bluberi") in their restructuring proceedings and landmark victory at the Supreme Court of Canada regarding litigation funding and the parties' required behaviour in insolvency matters; and
- The Pallinghurst Group in its joint acquisition of Québec-based Nemaska Lithium Inc. with Investissement Québec pursuant to a sales process under the *Companies' Creditors Arrangement Act* (CCAA), which marked the first reverse vesting order granted in a contested CCAA proceeding.

The *GRR 100* rankings are based on reputation, recent work and experience, as determined via extensive research and client review.
