Governance Insights: Get Smart on Artificial Intelligence (AI) and Corporate Governance: Key Considerations for Boards of Directors

Authors: <u>Jesany Michel</u>, <u>Alexander Max Jarvie</u> and <u>Aaron J. Atkinson</u>

It has been one year since OpenAI released ChatGPT, arguably catalyzing today's new wave of interest in AI. This surge of interest is driving substantial investments in AI technologies and a heightened urgency to address the use and regulation of AI. In today's environment, where business teams may be motivated to push for rapid adoption of new AI-related technologies, corporate directors mindful of their duty to manage risk may seek to tread more cautiously.

In this edition of *Governance Insights*, we offer boards of directors and their advisers practical considerations for effectively harnessing the opportunities and managing the risks associated with the use of Al.

Read our insights.
