

New Application Requirements Under the Québec Environmental Authorization Regime

The purpose of this training session is to explain the requirements for applications to issue, amend or renew ministerial authorizations that arise mainly from the *Environment Quality Act* and the *Regulation respecting the regulatory scheme applying to activities on the basis of their environmental impact*. This legislation will come into force on December 31, 2021. More specifically, the following topics will be discussed:

- requirements for applications for ministerial authorization
 - general requirements
 - specific requirements for certain activities
- requirements for applications to amend or renew a ministerial authorization
- electronic service delivery.

The training session aims to enable participants to

- understand the nature and scope of the new requirements, and
- understand and manage the obligations arising from the new requirements.

This training session is intended for officers and directors, legal counsel, environmental directors and other managers responsible for environmental compliance, risk management and optimization of business processes or strategies.
