Bar Admissions
Québec, 2021

"Our legal research and library services are integral to the firm's commitment to excellence, providing seamless access to the information, resources and knowledge that empower our legal professionals to deliver innovative solutions to our clients."

Bradley plays a key role in keeping the firm's lawyers informed of legislative and jurisprudential developments across its practice areas. Drawing on his extensive legal research experience, he provides analysis of complex legal issues and supports lawyers in navigating an evolving legal landscape.

Bradley brings a broad range of experience to his role, combining the practical insights gained through his prior litigation practice with the rigorous research and analytical skills cultivated through his judicial and academic experience.

Prior to joining Davies, Bradley served as a law clerk to the Honourable Mary T. Moreau of the Supreme Court of Canada and to the Honourable Justice Richard G. Mosely and the Honourable Michel M.J. Shore of the Federal Court. He earned a Master of Laws in Legal Theory from NYU in 2023 and remains engaged with questions at the intersection of legal theory and practice.
