Expertise
Environmental and Indigenous

Luana is an environmental professional with over 20 years of experience.

Luana works closely with the legal team to translate complex environmental and contamination issues into clear, practical advice on regulatory risk and liability and to inform client decision-making. Employing a practical and evidence-based approach – guided by technical rigour, regulatory knowledge and integrity – she provides clear, defensible technical opinions that support sound legal advice.

Prior to joining Davies, Luana served as Associate Director, Environmental & Social Risk at a prominent Canadian bank.
