Expertise
Mergers and Acquisitions
Capital Markets and Securities
Corporate

Nancy has over 30 years of experience working on corporate and securities matters, including public financing transactions, continuous disclosure filings and insider reporting.

She has worked extensively with SEDAR, the Canadian securities regulators' electronic filing system and database, since its inception. Nancy supports our corporate and securities lawyers with a wide range of regulatory filings via SEDAR, SEDI and TSX SecureFile. SEDAR filings include all types of continuous disclosure and prospectus offerings from IPO's, MJDS financings of debt and equity and shelf prospectuses including structured note programs and management of pre- and post-closing filings. She is familiar with securities rules and policies, and communicates on a regular basis with Canadian securities regulatory authorities. Nancy researches and analyzes publicly filed documents and provides critical support on public and private distributions of securities.

In addition, Nancy assists our clients with securities registrations and regulatory compliance matters, including filings via the National Registration Database.
