Adam is drawn to a career in law due to its analytical and problem-solving nature.

Adam looks forward to gaining early exposure to complex, high-level work and being able to take on meaningful responsibility from the outset. The opportunity to be closely involved in matters and learn directly from experience is something he finds particularly motivating.

Education

More About Me

Aside from your studies, what else do you like to spend time doing?

Sports are a big part of my life. I have always been drawn to soccer and hockey, both as a fan and as a player. In the summer, I enjoy playing golf and tennis. I also have a chow chow named Maki, who is a big part of my daily life. I enjoy spending time with him and getting outside whenever I can.

Tell us something about yourself in six words or less.

Driven, joyful and family-oriented.

Where was the last place you travelled?

I travelled to Buenos Aires, Argentina with one of my best friends and his family. What made the experience especially memorable was seeing the city through a local perspective. They showed me different neighbourhoods, places to eat and parts of the city I would not have discovered on my own. I was struck by the energy of the city, the architecture and the passion for soccer – which was something I really enjoyed experiencing first-hand.
