More About Me

Why did you choose to work with Davies?

I chose Davies because everyone is so passionate about what they do, invested in your personal and professional growth and excited to provide you with meaningful work opportunities, continued mentorship and space to grow as your authentic self.

If you were not a lawyer, what career would you have chosen?

I would be a pilot. I find planes to be a feat of engineering and the precision required to successfully take off, chart the proper course and land is admirable. Plus, it would allow me to explore so many cool places around the world!

Where was the last place you travelled?

Milos, Greece. My friends and I rented ATVs, beach hopped all day, cliff jumped and were then fed the best Greek food we've ever had by the most welcoming Yiayias and Papous around the island!
