More About Me

If you were not a lawyer, what career would you have chosen?

I would have been a pilot. I have always been fascinated by aviation, particularly its precision. As a very methodical person, I would have thrived in that field. In fact, this is the trait that drew me to law, where analyzing situations requires a rigorous mind to fully grasp the issues at stake.

What are you most looking forward to during your time at Davies?

I am especially eager to get to know the lawyers and the other students. I am also excited about stepping out of my comfort zone and challenging myself to learn new things. Also, this will be my first summer in Montréal, and I'm looking forward to experiencing life in the city.

Is there an organization that means a lot to you?

The Parc des Sommets de Bromont. It's a conservation park that develops trails on the mountain with a focus on sustainability. I worked there as a patroller for several years and had the opportunity to contribute to the creation and maintenance of several trails.
