Joshua studied commerce to develop a strong business perspective.

Joshua's foundation in commerce allows him to approach his legal studies with a practical understanding of the business realities clients might face.

Education

Concordia University

Law School

University of Ottawa

More About Me

Why did you choose Davies?

I chose Davies because of the people, strong mentorship culture and collaborative structure. Davies combines excellence with humility, which aligns closely with my values. The importance placed on mentorship stood out to me, as I want to learn from experienced colleagues. I was also drawn to the physical structure of the firm, where lawyers are not separated by practice group. This fosters collaboration and a strong sense of collegiality that resonates with me.

Is there a skill you would like to learn?

I would like to become fluent in another language. I currently speak English and French and am learning Spanish. Becoming fluent would expand my ability to connect with a broader range of clients and communities.

Whom have you learned the most from personally or professionally?

I have learned the most from my father. Having coached me in sports and guided me in my studies and in life, he instilled in me the importance of determination, discipline and respect. He taught me to lead by example while always treating others with kindness.
