julee@dwpv.com

Justin plans to apply his analytical and critical thinking skills in his legal career to find creative solutions for clients.

Justin is interested in both corporate and real estate law and has an appreciation for the role lawyers play in helping clients navigate legal obligations.

Education

McGill University

Law School

Osgoode Hall Law School

More About Me

Why did you choose to work with Davies?

Davies' generalist program intertwined meaningfully with both my attitude towards career development and client service. I am excited to gain significant exposure to multiple facets of business law at an early stage in my career. The opportunity to develop issue-spotting skills while working closely with lawyers who are passionate to teach and explain the full picture of a deal is exciting.

What fictional character do you identify most with?

The Road Runner from *Looney Tunes*. I admire how he isn't afraid to face adversity head on and can find creative solutions to the persistent obstacles in his path. Plus, I'm jealous of how fast he can run!

Is there a skill you would like to learn?

I would love to become proficient in more languages, especially French. I enjoy connecting with new people, sharing stories and learning about different cultures and experiences.
