More About Me

Why did you choose to work with Davies?

I chose to work at Davies because of its lean file staffing, exceptional clients and unparalleled expertise. As someone eager to make a meaningful impact on deals and grow as a lawyer, I believe the smaller file teams provide the opportunity to engage in substantive work while learning from some of the best lawyers on the most fascinating deals in the country.

Aside from your studies, what else do you like to spend time doing?

I try to go scuba diving as much as I can. I am a certified Advanced PADI Scuba Diver and I have completed over 30 dives with some being night dives, swimming with sharks and exploring wrecks.

Whom do you most admire?

I deeply admire my parents for their resilience in achieving their dreams in Canada. They moved from Poland with nothing but each other and managed to build an incredible life for themselves. Their journey and the way they raised me have profoundly shaped the person I am today, and I am incredibly thankful for their guidance and example.
