Université de Montréal

More About Me

Is there a particular practice area or industry that interests you?

I am particularly interested in corporate law. I am motivated by the idea of playing a role in some of the most important transactions in the country and I want to work on cases that will have a real and concrete impact on society.

Tell us about an organization that is important to you and why. Do you play a role in it?

Juripop is an organization that is close to my heart. I support their goal of making justice accessible. To date, after having been on the winning team of their 2020 moot court competition, I am involved in recruiting high school students to expose them to the field of law by conducting a mock trial.

If you had not chosen law, what career path would you have taken?

I am convinced that I would have ended up in law, no matter what path I took! I consider that my program helps stimulate my sense of reflection as well as my critical thinking aptitudes. Therefore, I feel I have found the right career path for me.
