DAVIES

William Stone-Barney
Student

Office
Montréal

Tel
514.841.6400

During his studies in political science, William developed a strong interest in articulating creative solutions to complex issues.

William looks forward to becoming a valued member of the team and learning from those around him.

Education

McGill University

Law School

McGill University

More About Me

Why did you choose Davies?

I chose Davies because I believe its top-of-market corporate and litigation practice groups, coupled with the firm's uniquely collegial office environment, makes it the perfect place to learn and develop my own practice.

Is there an organization that means a lot to you?

ALS Québec means a lot to me as I have many friends and members of my community who have either lost their lives or lost loved ones to ALS. My most significant involvement with ALS Québec was founding my own fundraising initiative in 2022 titled "Big Mountains Bigger Cause," where a friend and I launched and managed a verticalmetre pledge campaign that generated $30,000+ for ALS research and palliative care by climbing and skiing multiple 14,000-foot peaks in the southwest United States.

Aside from your studies, what else do you like to spend time doing?

Aside from my studies, I am an avid endurance and mountain athlete. In the summer months, I enjoy distance running and swimming, while in the winter, I spend my free time ski touring and mountaineering. I enjoy the high pressure of intense alpine environments, where every decision matters and relentless perseverance is required to finish long races.
